Conversation Dirigée/Guided Conversation for Lesson 1:

- ***You meet a new student at the French club, imagine a dialogue in which you two introduce yourselves:***
- ***Give your name and invent an name for that student and introduce yourselves to each other.***
- ***Give your nationality and let the student state it as well. You cannot use the question "What is your nationality?", so state your nationality and use "and you?" as a question tag. In French, it translates into: "et toi?"***
- ***Tell each other what your city of origin is, use the question: "where are you from?"***

Conversation Dirigée/Guided Conversation for Lesson 2:***This written production is actually not a conversation/dialogue.***

All you need to do is to write the names of three of the following people and introduce them.

- ***a brother or sister***
- ***a cousin (male or female)***
- ***a friend***
- ***a roommate***
- ***a teacher***

e.g. Mon frère s'appelle Frank.

Please type the assignments double-spaced and hand them in before Wednesday, September 17 at 11.59 pm.

- ***Either type the answers directly in the assessment box, type it in a Word document or handwrite them and make it into a pdf.***

Then, upload to:
