

Dear students,

I wanted to take a moment to remind you about the importance of in-class activities/Assignments during the designated class time.

In-class activities are designed to engage you directly, facilitate understanding, and reinforce concepts covered during lectures. By actively participating in these activities, you not only enhance your comprehension but also make valuable contributions to the collective learning environment.

Please note that in-class assignments are intended to be completed during class time only. If you miss an in-class assignment, it cannot be completed later for marks.

You are always welcome to complete the assignment on your own for practice and learning purposes, as this can be beneficial for your understanding; however, no marks will be awarded for work completed outside of class. Please do not email to request make-ups or extensions for in-class assignments.

It's important to note that I do not provide the solutions for in-class activities/Assignments. If, for any reason, you are unable to attend a class where an in-class activity takes place, I encourage you to reach out to your classmates for assistance in obtaining the answers.

I appreciate your attention to this matter and your commitment to your education. Please make every effort to attend classes regularly and complete the in-class activities promptly.

Wishing you a continued successful academic journey.

Azadeh
